

Brown & Brown named one of the 2026 Healthiest 100 Workplaces in America®

October 8, 2026

Company ranks No. 25 nationally in Healthiest Employers® program

DAYTONA BEACH, Fla., Oct. 08, 2026 (GLOBE NEWSWIRE) -- [Brown & Brown, Inc.](#) (NYSE: BRO) today announced it has been named one of the [2026 Healthiest 100 Workplaces in America®](#) by [Healthiest Employers®](#), ranking No. 25 nationally.

The Healthiest 100 Workplaces in America honors organizations that demonstrate a commitment to adapting their programs to support employees across work environments and life stages, prioritizing flexibility, work-life balance, mental health resources and data-informed decision-making.

“Our teammates are our greatest strength, and the best us is a healthy us,” said Powell Brown, president and chief executive officer. “When people feel supported and are at their best, our customers feel it, our business benefits from it and our culture grows stronger because of it. This recognition belongs to our teammates, who make Brown & Brown a special place through the way they care for one another, serve our customers, and strive to get better every day.”

Brown & Brown supports teammate well-being through thoughtfully designed benefits and programs that address physical, mental and financial health—including mental health resources, financial wellness support and ongoing listening efforts that help the company respond to teammates’ evolving needs.

Each company on the list completed the 2026 Healthiest Employers application. The assessment’s categories, scoring, and benchmarking were developed with input from an independent national panel representing the academic, medical, wellness, human resources and business communities. Applications are evaluated on a 1–100 rubric-based scale across six categories using yes-or-no, multiple-choice and short-answer questions.

Organizations are evaluated across six categories:

- Culture and Leadership Commitment
- Foundational Components
- Strategic Planning
- Communications and Marketing
- Programming and Interventions
- Reporting and Analytics

Applicants for the national award are also evaluated through an additional Healthiest 100 Workplaces in America section, which considers essay responses and questions related to chronic conditions and workplace health. Details on scoring methodology can be found [here](#).
